

# SEPTEMBER'S BUSINESS OF THE MONTH!

The Savanna Chamber of Commerce is pleased to announce Seven Eagles Campground and Resort as Septembers Business of the Month!!

Mick and Ruth Morfey have been the proud owners of Seven Eagles Campground and Resort, located in Savanna IL. for 26 years. Mick and Ruth have always been in the customer service industry. Their customer service experience started with the Upper Deck Sports Bar and Grill, which they owned for over 20 years. After many successful years, they decided to try something a little bit different. Tourism was gaining popularity and they jumped at the opportunity to build a campground. At Seven Eagles Resort and Campground we are unique because we provide a full-service campground.

Our amenities include a swimming pool, fishing pond, access to the Great River Bike Trail, as well as our Clubhouse, playground and basketball court. Another new trend in camping is Park Models, in which we also sell. You can keep your park model right here at the campground or have them delivered off-site to a place of your choice. At Seven Eagles Resort and Campground you can enjoy your stay if you have an RV, or by staying in one of our cabins, or hotel rooms. We have seen an upward trend in not just retirees wanting to camp, but more families with children. The kids always have a great time out here and Ruth is known for spoiling all the kids and giving them ice-cream when they are at the pool. Throughout the summer, many activities are planned not only for the adults but also for the children. You can often find our Seven Eagles Trolley frequenting local establishments in town. We also encourage our campers to use their golf carts to eat and shop local. They are able to hop right onto the bike trail and make their way to town in just a few short minutes. This has been a great business for both Ruth and I and we truly have enjoyed our customers and look forward to every season. It's wonderful meeting new people and knowing that they enjoy their time relaxing and spending time with their families while they are here. If I were to offer advice to someone just starting out, I would say work hard, and always keep your business clean and up to date. Maintain a high standard for your business and success will follow. If you have a partner, listen to each other, and enjoy what you are building together to make it a success.
